

Cropland in 2025 | global satellite overview

0.1-degree grid: share of valid 0.01-degree service-overview samples; not an exact 10 m area fraction

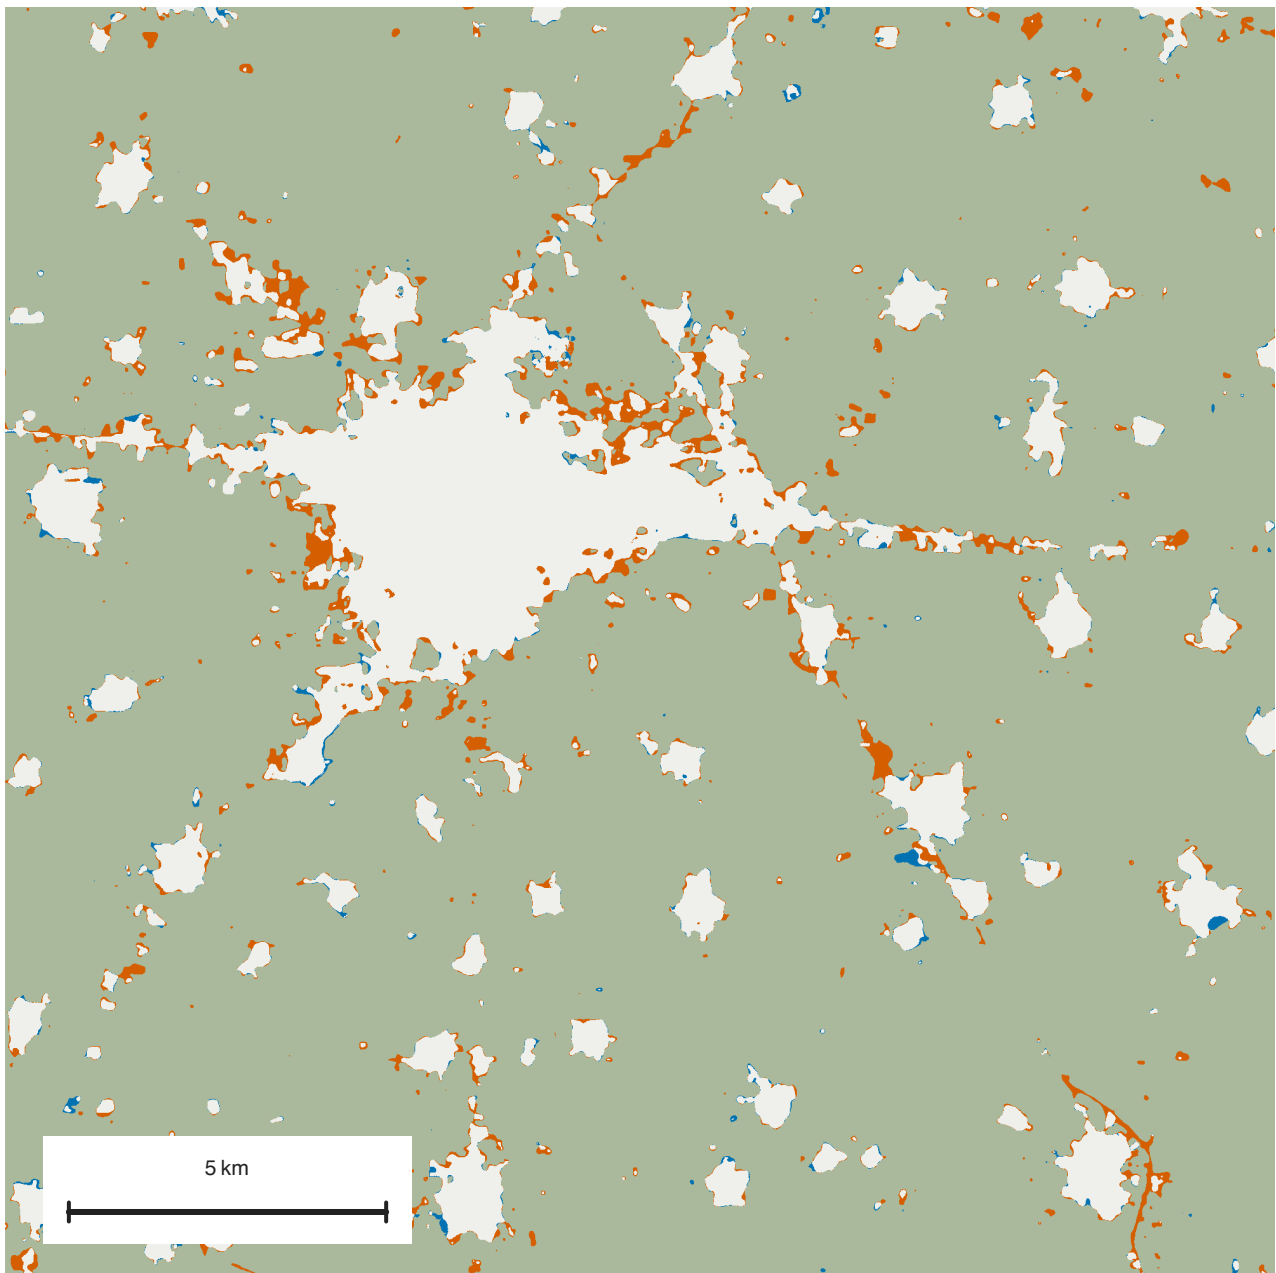

A Iowa, USA
2017–2025 | 10 m | 20 x 20 km

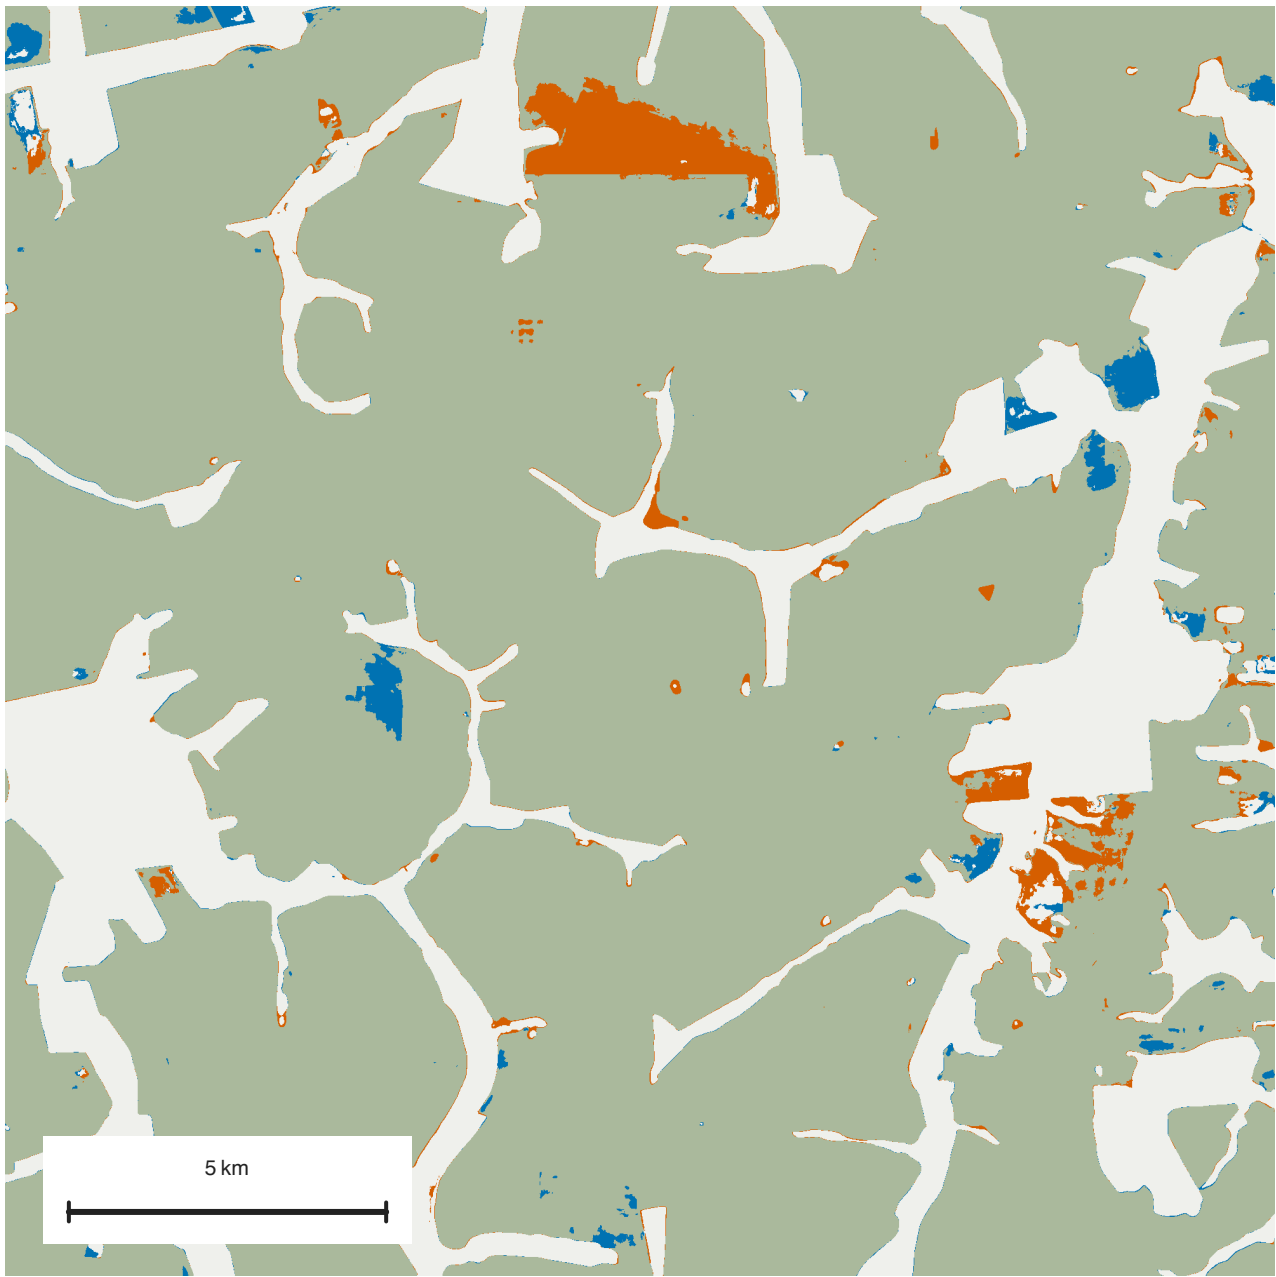

Expansion 0.47% | Contraction 0.83% | Net -0.36 pp
Fractions of the area classified in both years

C Punjab, India
2017–2025 | 10 m | 20 x 20 km

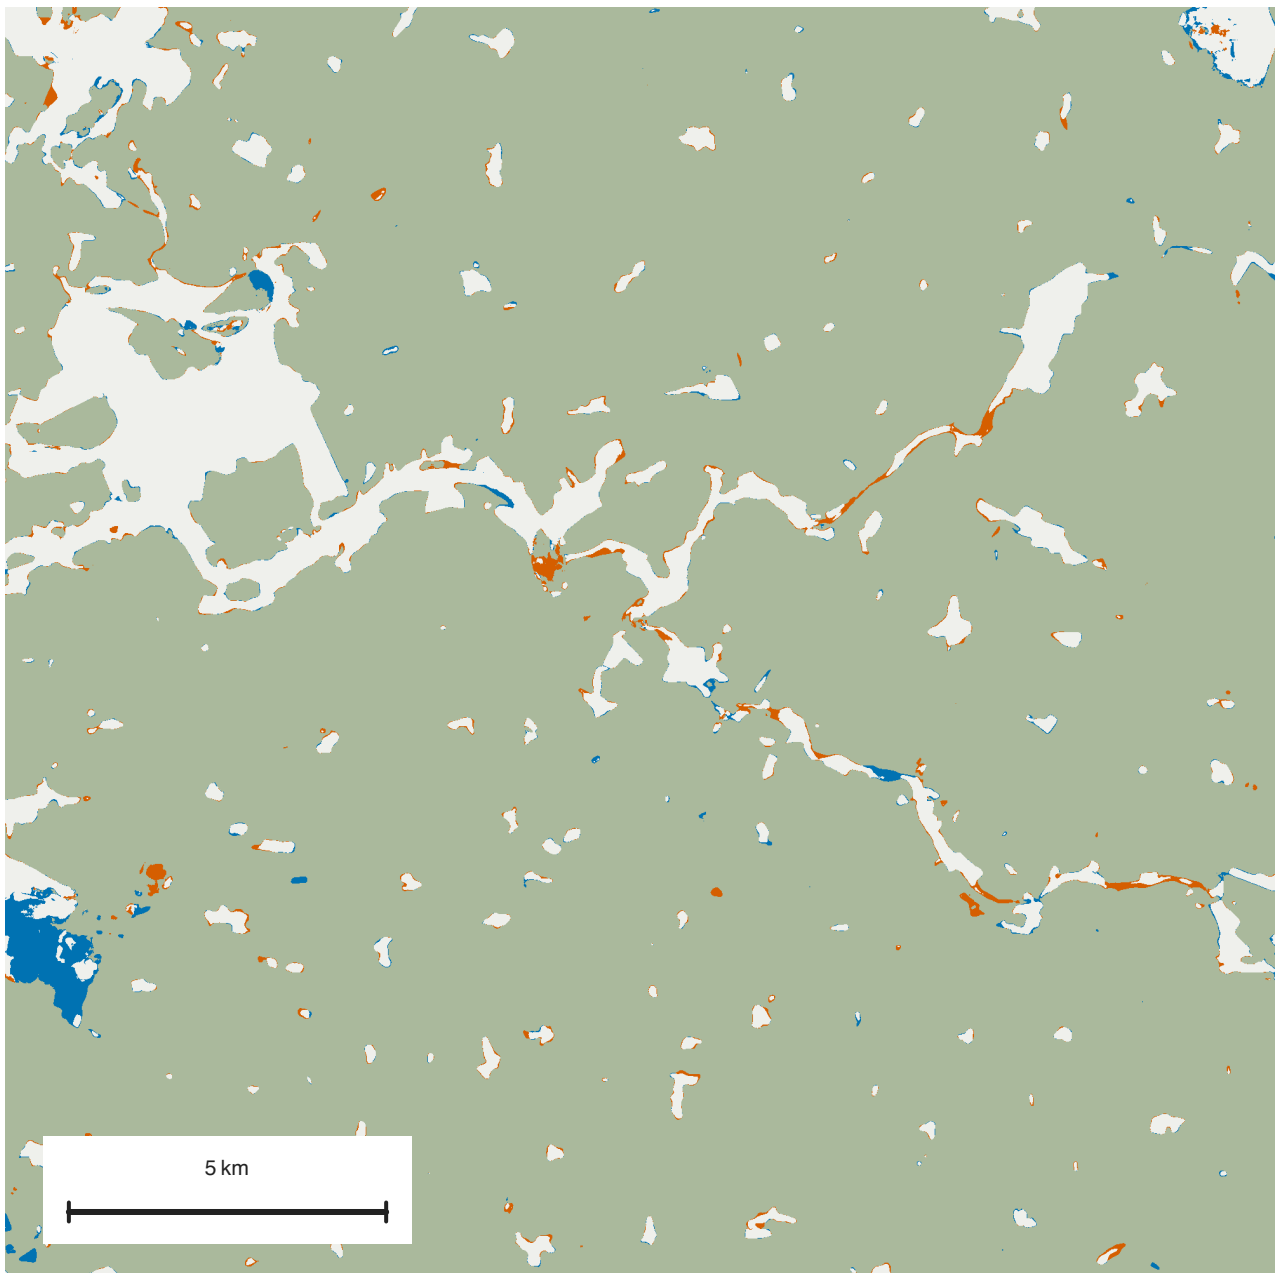

Expansion 0.36% | Contraction 2.38% | Net -2.02 pp
Fractions of the area classified in both years

B Mato Grosso, Brazil
2017–2025 | 10 m | 20 x 20 km

Expansion 1.05% | Contraction 2.11% | Net -1.06 pp
Fractions of the area classified in both years

D Beauce, France
2017–2025 | 10 m | 20 x 20 km

Expansion 0.80% | Contraction 0.70% | Net +0.10 pp
Fractions of the area classified in both years

Stable non-crop Stable crop Expansion Contraction Cloud / no data in either year
